There is a movement on foot to have a special sermon in at least one of the churches every Sunday night, that will be given for the benefit of those who wish to know the subject to be preached upon beforehand, and who want something prepared especially for public interest. Rev. Edson was to have given the first one last Sunday evening but did not on account of the heating apparatus of the church being out of order. The coming Sunday evening Elder Davis of the Christian church will give a popular lecture on "Woman's Opportunities." Those who have no special place to go to church are urged to help Rev.
